Workshop Faculty Welcome Message

Dear Friends and Colleagues,

Greetings from ISTS!

It is our great pleasure to welcome you to the **7th National Conference of the Indian Society of Thyroid Surgeons (ISTS 2025)**, to be held from **26th to 28th September 2025 in the vibrant city of Ahmedabad, Gujarat.**

Apart from the exceptional scientific extravaganza planned, we have curated a very niche pre-conference workshop on **26th September 2025 (Friday)** with specific focus on Microablation for Thyroid Nodule.

Participants will benefit through discussions on most widely adopted minimally invasive treatments, including indications and techniques. Extensive hands-on workshops on various modalities, including laser, radiofrequency, and microwave, will provide attendees with the opportunity to handle current devices and learn about the most advanced technologies in thyroid microablation.

On behalf of ISTS and the organizing committee, we extend our heartfelt invitation to you. We hope that through this pre-conference workshop, each of us will take home a learning that we can implement in our day to day work.

We look forward to welcoming you to the vibrant state of Swarnim Gujarat!

Warm regards,

Dr. Shankar Naik Nunavath

Microwave Surgeon
Hyderabad

Dr. Murtuza Laxmidhar
